

THE SIGNAL PROJECT

Schools Intergenerational Nurturing And Learning Project

www.schoolsinteractive.co.uk

WORLD WIDE WEB

OUR VISION: The vision of Schoolsinteractive is to develop citizenship through the connecting of various communities across the UK. These communities exist as educational, business and faith-based. This will be expressed both virtually (on the Internet) and terrestrially (via workshops and local projects).

It is hoped that others will join us in extending this vision locally and nationally to create a replicable, sustainable model.
